

**Certification of Emergency
Under
Falmouth Wetlands Bylaw
Chapter 235 of the Code of Falmouth**

LOCATION OF WORK:

1. The applicant hereby requests the Conservation Commission to certify the following project as an emergency project:
(describe work to be allowed, and attach supplemental information if more space is needed)

2. The project is necessary for the protection of the health and safety of the citizens of the commonwealth because:

3. The agency (or subdivision thereof) of the commonwealth that has ordered the project to be performed is:

4. No work shall be allowed beyond that necessary to abate the emergency. The date work shall be completed by:
_____ Not to exceed 30 days.

(signature of applicant)

(date)

On the basis of the above information, and after a site inspection, the project described above (and in any supplemental information provided) is determined to be a certified emergency pursuant to FWR 10.06.
