

Buzzards Bay

*National Estuary
Program*

Wayne Turner, Chairman
Westport Conservation Commission
856 Main Road
Westport, MA 02790

May 7, 2008

Dear Mr. Turner:

At the request of the Westport Conservation Commission, the Buzzards Bay National Estuary Program has completed the final version of a brochure that describes the functions of the Westport Conservation Commission, and the permit process under the state's Wetland Protection Act. This version includes editorial and text change recommendations we received from the Conservation Commission in December and February.

Enclosed are 500 copies of the brochure. Although we do not charge for our services, we estimate the cost of the developing and printing of the brochure represents an \$800 minimal value to the Town if you were to procure those services.

If you require additional copies, please do not hesitate to call me.

Sincerely,

Joseph E. Costa, PhD
Executive Director
